STAINLESS STEEL MILL FOR OLIVE **MODEL “ M-3”**

The mill "M-3" is designed to mill olives, obtaining a perfect mass for use in the MG-707.

FOR ITS CORRECT OPERATION WE MUST FOLLOW CERTAIN RULES:

- 1 - Check that the direction of rotation is the one indicated by the label
- 2 - Turn on the equipment using the **GREEN** button back **(TURN IT ON EMPTY, NEVER WITH OLIVES INSIDE)**. To stop, use the **RED** button located at the rear.
- 3 - Once the march begins, drop the olives through the hopper, if they are stuck, you have to use wooden utensil to push them. Never reach with the wooden utensile the entrance orifice
- 4 - To clean it up. For safety before open the hopper, **DISCONNECT FROM THE POWER SOURCE** to avoid accidents.
- 5 - We remember that the power outlet where the equipment is connected must have a safety circuit breaker, to avoid that if the motor is blocked it will burn.

TECHNICAL DATA

TYPE: HAMMER MILLS.
MATERIAL: STAINLESS STEEL.
SIZE: 230 x 360 x 450 mm (H x W x D)
IMPUP POWER: 1 HP.
ELECTRICAL CONNECTION: 3 X 380-415 V, 50Hz
WEIGHT: 24 Kg.

ESTIMATED TIME TO MILL A SAMPLE: FROM 5 TO 10 SECONDS
